Application Procedure for Foreign Student Admission

to

# Department of Engineering Graduate School of Sustainability Science Master's Program, 2026 (April entrance)

# **Tottori University**

4-101 Koyama-Minami, Tottori, 680-8552 Japan Phone: +81-857-31-5186 This "Application Procedure for Foreign Student Admission" includes information both for First Period Application and for Second Period Application.

Applicants for First Period Application should refer to the pages 1-6, 13, and the subsequent pages.

Applicants for Second Period Application should refer

to the pages 7-13, and the subsequent pages.

# Application Procedure for Admission (First Period Application)

#### 1. Courses and Number of Enrollments

| Courses                                 | Number of<br>Enrollments |
|---|--------------------------|
| Mechanical and Aerospace<br>Engineering | a few                    |
| Information and Electronics             | a few                    |
| Chemistry and Biotechnology             | a few                    |
| Social Systems and Civil<br>Engineering | a few                    |

#### 2. Qualifications for Application

Non-Japanese citizens who meet one of the following qualifications are eligible for application.

- 1. Have graduated from an accredited university abroad, or are expected to graduate by the end of March, 2026 and completed 16-years schooling in foreign countries.
- 2. Have been approved by the Japanese Minister of Education, Culture, Sports, Science and Technology of Japan.
- 3. Have been approved by Department of Engineering, Graduate School of Sustainability Science, Tottori University, as having academic ability equivalent to university graduates and will become 22 years old or more by March 31, 2026.<sup>\*\*1</sup>
- 4. Have completed or be expected to complete the program (limited to the ones that their graduates are regarded as completion of 16-years school education of the foreign country) provided by the educational institution that is founded as a part of the formal education system of the foreign country, and is also specified elsewhere by Minister of Education, Culture, Sports, Science and Technology of Japan, on or before March 31 of 2026.
- 5. Have received or be expected to receive a degree equivalent to bachelor's degree by completing the program of more than 3 years (including degrees obtained by completing the distance education program provided by the foreign university while residing in Japan, or by completing the program specified by Qualification 4 above at the educational institution founded on the formal education system of the foreign country) at university or other forms of school in foreign country (limited to the institutions specified by Minister of Education, Culture, Sports, Science and Technology of Japan, as having being assessed their activities including research and education by the body certified by the residing government or the relevant institutions, or as being equivalent), on or before March 31 of 2026.

<sup>\*\*1</sup> Applicants who fall in the qualification 3 above should submit their admission application (Form 1), past professional and research record (Form 2), Transcript of degree or graduation certificate issued by the university or college attended, and Transcript of scholastic record issued by the university or college attended. The submission should be from Tuesday, May 20, 2025 to Friday, May 23, 2025. Qualification review results will be mailed to the applicants on Tuesday, June 10, 2025.

#### Note.

- 1. Most lectures in the Department of Engineering, Graduate School of Sustainability Science, Tottori University are offered in Japanese. Applicants should note that it is essential to achieve a sufficient mastery of the Japanese language before their admission.
- 2. Before applying to the Graduate School (master's program), applicants are advised to take one or two semesters of study as Postgraduate Research Students (non-degree program)<sup>\*2</sup> under a desired supervisor to fill in gaps in their engineering education and to acquire a good command of Japanese language in preparation for the entrance examinations.

#### **3.** Application Procedure

#### 3.1 Choice of Course and Desired Academic Supervisor

The applicant must choose one of the four courses and the desired academic supervisor, and write them in the appropriate columns of the application form (Form 1). The applicant must contact with the desired academic supervisor written in Form 1 before submitting the application.

#### **3.2 Application Period**

Applications will be accepted from 9:00 to 17:00 from Tuesday, July 22 to Friday, July 25, 2025 at the Student Section in the Faculty of Engineering, Tottori University. Those who send applications by mail should use registered mail and write 'Application Forms for Master's program' in red on the front of the envelope. All applications must reach Student Section in Faculty of Engineering, Tottori University, no later than 17:00 on Friday, July 25, 2025. Any applications received after this due will not be accepted.

#### **3.3 Application Documents**

Applicants should submit the following documents to the Student Section in the Faculty of Engineering, Tottori University, during the above-mentioned application period.

- 1. Application Form for Admission (Form 1)
- 2. Admission Cards with photos (in duplicate)
- 3. Transcript of degree or graduation certificate issued by the university or college that you have attended.
- 4. Transcript of scholastic record issued by the university or college that you have attended. This should be a confidential communication between the university or college that you have attended and Tottori University.
- 5. Certificate of proficiency in Japanese language made by a teacher of Japanese language or an equivalent, if any.
- Certificate of Residence, copy of Residence Card, or copy of Passport. (Foreigners residing in Japan should submit a copy of their Residence Card (both sides) or a Certificate of Residence issued by the city or town office you live in. Other foreigners should submit a copy of your passport.)
- 7. Examination fee of 30,000 yen.<sup>\*\*3</sup>

 $<sup>^{\</sup>otimes_2}$  See Appendix.

<sup>\*\*3</sup> Complete the payment at a nearby bank in Japan by the slip enclosed in this booklet. Then, stick the payment receipt slip (the right part of the form: 検定料振込済証明書) on the Application Payment Confirmation Slip part in Form 1.

Payment Period:

The First Period Application is from Friday, July 11 to Friday, July 25, 2025.

#### 3.4 Note

- 1. Incomplete or incorrect application forms and documents will not be accepted.
- 2. The above mentioned items of the application are not substitutable once they have been received by the Student Section in the Faculty of Engineering, Tottori University.
- 3. Under any circumstances, the application forms, documents and examination fee cannot be returned to the applicant once they have been received by the Student Section in Faculty of Engineering, Tottori University.
- 4. Application should be written either in block capitals or typed.

#### 4. Screening

#### 4.1 Screening Procedure

Preliminary screening for admission will be made on the basis of the submitted documents. Applicants who pass this preliminary screening will be notified to take a subsequent written examinations in the following subjects and an oral examination.

- 1. Course of Mechanical and Aerospace Engineering
  - Wednesday, August 20, 2025
  - (1) Mathematics / 9:00-11:00
  - (2) Physics for Mechanical Engineering / 12:30-14:30
  - (3) Oral Examination / 15:00-
- 2. Course of Information and Electronics Wednesday, August 20, 2025
  - (1) Mathematics / 9:00-11:00
  - (1) Mathematics / 5.00 1100(2) Oral Examination / 14:00-
- 3. Course of Chemistry and Biotechnology Wednesday, August 20, 2025
  - Wednesday, August 20, 2025
  - (1) Two from the following four subjects /9:00-12:00
    - A. Organic Chemistry, Analytical Chemistry
    - B. Inorganic Chemistry, Physical Chemistry
    - C. Microbiology, Molecular Biology
    - D. Biochemistry, Structural Biology
    - %Please select two pairs of subjects on the Application Form for Admission (Form 1).
    - \*Changes after application are not accepted.
    - XBring a scientific calculator
  - (2) Oral Examination / 14:00-
- 4. Course of Social Systems and Civil Engineering Wednesday, August 20, 2025
  - (1) Social Systems and Civil Engineering / 9:00-10:10
  - (2) Mathematics / 12:30-14:00
  - (3) Oral Examination / 15:00-

Venue: Department of Engineering, Graduate School of Sustainability Science (Faculty of Engineering Building), Tottori University, 4-101 Koyama-Minami, Tottori 680-8552, Japan

#### Note.

- 1. Applicants should bring the Admission Card with them to the venue of examination. The Card should be placed on the designated desk during the written examination.
- 2. Applicants are requested to enter the examination room by 8:45. The information regarding examination rooms and others, will be posted on the notice board of the Department of Engineering, Graduate School of Sustainability Science (at the main entrance of the Faculty of Engineering Building) from 15:00 the day before the written examination.
- 3. Late-comer to the examination may be allowed to take examination only if he or she arrives the venue of examination no later than 30 minutes after the examination starting time.

#### 4.2 Preliminary Consultation for Handicapped Applicants

Applicants with disabilities who need some specific assistances during the examination as well as study terms after entrance, must submit a document (written in arbitral format) including the following items and a medical certificate prepared by a physician to Student Section in Faculty of Engineering, Tottori University, by Friday, July 4, 2025, during the examination and while attending graduate school.

- 1. Name of applicant, address and telephone number
- 2. School from which you graduated
- 3. Course and Field of your choice
- 4. Type and degree of disability
- 5. Attention needed upon examination
- 6. Attention needed while attending graduate school
- 7. Measures and supports provided at previous schools
- 8. Conditions of daily life

In addition, if Tottori University sees the need, the university will have interviews with the applicants or people from their current or previous schools, or other related persons, who are able to speak on behalf of the applicants.

#### 5. Notification of Results

The results of the screening will be put on the web page of Tottori University around 11:00 on Thursday, September 4, 2025.

(https://www.admissions.adm.tottori-u.ac.jp/).

The notifications of acceptance will be mailed to the successful applicants, except for the student currently attending Tottori University to whom the notification will be handed directly at Student section in Faculty of Engineering. Inquiries about the results by other means such as phone and e-mail are not available.

Detailed information concerning registration after acceptance will be informed to the successful applicants in early February, 2026.

#### 6. Admission, Tuition and Insurance Fees

- 1. Admission Fee<sup>\*\*4:</sup> 282,000 yen (planned amount. Must be paid at the time of registration. Not refundable.)
- 2. Tuition Fee<sup>\*\*4</sup>: 535,800 yen for one academic year (planned amount)
- 3. Insurance Fee

Students of Tottori University are required to be covered by the Personal Accident Insurance for Students Pursuing Education and Research ("Gakkensai") and the Comprehensive Insurance for Students' Lives Coupled with PAS for International Students ("Insurance for International Students").

1) Gakkensai: This accident insurance covers injuries resulting from a sudden accident while insured students are participating in regular or extracurricular activities, being on campus, or commuting to school.

Insurance premiums (2 years): 1,750 yen

Department in charge: Health Science Center

(E-mail: hokekan-jimu@ml.adm.tottori-u.ac.jp)

2) Insurance for International Students: This insurance provides a wide range of support for student life, including personal liability, permanent disability, medical expenses for daily injuries, rescue expenses, and accidental damage to household goods in the residence.

<sup>&</sup>lt;sup>\*\*4</sup> Foreign students supported by the scholarship from Japanese Government are exempt from the

admission and the tuition fees.

Insurance amount (2 years): The amount varies depending on the type. Department in charge: International Affairs Division (Tel+81-85731-5056, E-mail: kokukogaku@ml.adm.tottori-u.ac.jp) For more details, please contact each department.

#### Note.

- 1. University admission and tuition fees above are estimates only. In cases where fee adjustments are announced while students are entering university or when they are already enrolled, students will be requested to pay the adjusted fees.
- 2. The method for paying tuition fee will be announced later when you are guided for university entrance procedure.

#### 7. Inquiries

Any inquiries related to the application to Department of Engineering, Graduate School of Sustainability Science, Tottori University, should be made by mail to Student Section in Faculty of Engineering, Tottori University, given below.

Student Section in Faculty of Engineering Department of Engineering, Graduate School of Sustainability Science Tottori University 4-101 Koyama-Minami, Tottori, 680-8552 Japan Phone: +81-857-31-5186 E-mail: en-kyoumu@ml.adm.tottori-u.ac.jp

#### 8. Correspondences in Case of Unforeseen Circumstances

When the screening cannot be implemented as scheduled due to large disaster or other unforeseen events, or when the university foresees that traffic disruption or other hazardous events have great negative effects on the applicants, correspondences might be taken such as changes of examination time and/or dates, screening methods, and date of result publication. When the specific correspondence to such event is determined, it will be posted on the official web site of Tottori University. So please be careful on Tottori University web site, especially just before the examination date.

# Application Procedure for Admission (Second Period Application)

#### 1. Courses and Number of Enrollments

| Courses                                 | Number of<br>Enrollments |
|---|--------------------------|
| Mechanical and Aerospace<br>Engineering | a few                    |
| Information and Electronics             | a few                    |
| Chemistry and Biotechnology             | a few                    |
| Social Systems and Civil<br>Engineering | a few                    |

#### 2. Qualifications for Application

Non-Japanese citizens who meet one of the following qualifications are eligible for application.

- 1. Have graduated from an accredited university abroad, or are expected to graduate by the end of March, 2026 and completed 16-years schooling in foreign countries.
- 2. Have been approved by the Japanese Minister of Education, Culture, Sports, Science and Technology of Japan.
- 3. Have been approved by Department of Engineering, Graduate School of Sustainability Science, Tottori University, as having academic ability equivalent to university graduates and will become 22 years old or more by March 31, 2026.<sup>\*\*1</sup>
- 4. Have completed or be expected to complete the program (limited to the ones that their graduates are regarded as completion of 16-years school education of the foreign country) provided by the educational institution that is founded as a part of the formal education system of the foreign country, and is also specified elsewhere by Minister of Education, Culture, Sports, Science and Technology of Japan, on or before March 31 of 2026.
- 5. Have received or be expected to receive a degree equivalent to bachelor's degree by completing the program of more than 3 years (including degrees obtained by completing the distance education program provided by the foreign university while residing in Japan, or by completing the program specified by Qualification 4 above at the educational institution founded on the formal education system of the foreign country) at university or other forms of school in foreign country (limited to the institutions specified by Minister of Education, Culture, Sports, Science and Technology of Japan, as having being assessed their activities including research and education by the body certified by the residing government or the relevant institutions, or as being equivalent), on or before March 31 of 2026.

<sup>\*\*1</sup> Applicants who fall in the qualification 3 above should submit their admission application (Form 1), past professional and research record (Form 2), Transcript of degree or graduation certificate issued by the university or college attended, and Transcript of scholastic record issued by the university or college attended. The submission should be from Monday, September 29, 2025 to Wednesday, October 1, 2025. Qualification review results will be mailed to the applicants on Wednesday, October 8, 2025

#### Note.

- 1. Most lectures in the Department of Engineering, Graduate School of Sustainability Science, Tottori University are offered in Japanese. Applicants should note that it is essential to achieve a sufficient mastery of the Japanese language before their admission.
- 2. Before applying to the Graduate School (master's program), applicants are advised to take one or two semesters of study as Postgraduate Research Students (non-degree program) <sup>\*\*2</sup> under a desired supervisor to fill in gaps in their engineering education and to acquire a good command of Japanese language in preparation for the entrance examinations.

#### **3.** Application Procedure

#### 3.1 Choice of Course and Desired Academic Supervisor

The applicant must choose one of the four courses and the desired academic supervisor, and write them in the appropriate columns of the application form (Form 1). The applicant must contact with the desired academic supervisor written in Form 1 before submitting the application.

#### **3.2 Application Period**

Applications will be accepted from 9:00 to 17:00 from Monday, October 27 to Thursday, October 30, 2025 at the Student Section in the Faculty of Engineering, Tottori University. Those who send applications by mail should use registered mail and write 'Application Forms for Master's program' in red on the front of the envelope. All applications must reach Student Section in Faculty of Engineering, Tottori University, no later than 17:00 on Thursday, October 30, 2025. Any applications received after this due will not be accepted.

#### **3.3 Application Documents**

Applicants should submit the following documents to the Student Section in the Faculty of Engineering, Tottori University, during the above-mentioned application period.

- 1. Application Form for Admission (Form 1)
- 2. Admission Cards with photos (in duplicate)
- 3. Transcript of degree or graduation certificate issued by the university or college that you have attended.
- 4. Transcript of scholastic record issued by the university or college that you have attended. This should be a confidential communication between the university or college that you have attended and Tottori University.
- 5. Certificate of proficiency in Japanese language made by a teacher of Japanese language or an equivalent, if any.
- 6. Certificate of Residence, copy of Residence Card, or copy of Passport. (Foreigners residing in Japan should submit a copy of their Residence Card (both sides) or a Certificate of Residence issued by the city or town office you live in. Other foreigners should submit a copy of your passport.)
- 7. Examination fee of 30,000 yen.<sup>\*\*3</sup>

 $<sup>^{\</sup>otimes_2}$  See Appendix.

<sup>\*\*3</sup> Complete the payment at a nearby bank in Japan by the slip enclosed in this booklet. Then stick the payment receipt slip(the right part of the form: 検定料振込済証明書) on the Application Payment Confirmation Slip part in Form 1.

Payment Period:

The Second Period Application is from Monday, October 20 to Thursday, October 30, 2025.

#### 3.4 Note

- 1. Incomplete or incorrect application forms and documents will not be accepted.
- 2. The above mentioned items of the application are not substitutable once they have been received by the Student Section in the Faculty of Engineering, Tottori University.
- 3. Under any circumstances, the application forms, documents and examination fee cannot be returned to the applicant once they have been received by the Student Section in the Faculty of Engineering, Tottori University.
- 4. Application should be written either in block capitals or typed.

#### 4. Screening

#### 4.1 Screening Procedure

Preliminary screening for admission will be made on the basis of the submitted documents. Applicants who pass this preliminary screening will be notified to take a subsequent written examinations in the following subjects and an oral examination.

- 1. Course of Mechanical and Aerospace Engineering
  - Saturday, December 6, 2025
  - (1) Mathematics / 9:00-11:00
  - (2) Physics for Mechanical Engineering / 12:30-14:30
  - (3) Oral Examination / 15:00-
- 2. Course of Information and Electronics
  - Saturday, December 6, 2025
  - (1) Mathematics / 9:00-11:00
  - (2) Oral Examination / 14:00-
- 3. Course of Chemistry and Biotechnology Saturday, December 6, 2025
  - (1) Two from the following four subjects /9:00-12:00
    - A. Organic Chemistry, Analytical Chemistry
      - B. Inorganic Chemistry, Physical Chemistry
      - C. Microbiology, Molecular Biology
      - D. Biochemistry, Structural Biology
      - \* Please select two pairs of subjects on the Application Form for Admission (Form 1).
      - \*Changes after application are not accepted.
    - XBring a scientific calculator
  - (2) Oral Examination / 14:00-
- 4. Course of Social Systems and Civil Engineering
  - Saturday, December 6, 2025
  - (1) Social Systems and Civil Engineering / 9:00-10:10
  - (2) Mathematics / 12:30-14:00
  - (3) Oral Examination / 15:00-

Venue: Department of Engineering, Graduate School of Sustainability Science (Faculty of Engineering Building), Tottori University, 4-101 Koyama-Minami, Tottori 680-8552, Japan

#### Note.

- 1. Applicants should bring the Admission Card with them to the venue of examination. The Card should be placed on the designated desk during the written examination.
- 2. Applicants are requested to enter the examination room by 8:45. The information regarding examination rooms and others, will be posted on the notice board of the Department of Engineering, Graduate School of Sustainability Science (at the main entrance of the Faculty of Engineering Building) from 15:00 the day before the written examination.
- 3. Late-come to the examination may be allowed to take examination only if he or she arrives the venue of examination no later than 30 minutes after the examination starting time.

#### 4.2 Preliminary Consultation for Handicapped Applicants

Applicants with disabilities, who need some specific assistances during the examination as well as study terms after entrance, must submit a document (written in arbitral format) including the following items and a medical certificate prepared by a physician to Student Section in faculty of Engineering, Tottori University by Friday, October 17, 2025, as the applicants may need attention during the examination and while attending graduate school.

- 1. Name of applicant, address and telephone number
- 2. School from which you graduated
- 3. Course and Field of your choice
- 4. Type and degree of disability
- 5. Attention needed upon examination
- 6. Attention needed while attending graduate school
- 7. Measures and supports provided at previous schools
- 8. Conditions of daily life

In addition, if Tottori University sees the need, the university will have interviews with the applicants or people from their current or previous schools, or other related persons. who are able to speak on behalf of the applicants.

#### 5. Notification of Results

The results of the screening will be put on the web site of Tottori University around 11:00 on Thursday, December 25, 2025.

(https://www.admissions.adm.tottori-u.ac.jp/).

The notifications of acceptance will be mailed to the successful applicants, except for the student currently attending Tottori University to whom the notification will be handed directly at Student section in Faculty of Engineering. Inquiries about the results by other means such as phone is not available.

Detailed information concerning registration after acceptance will be informed to the successful applicants in early, February 2026.

#### 6. Admission, Tuition and Insurance Fees

- Admission Fee<sup>\*\*4</sup>: 282,000 yen (planned amount. Must be paid at the time of registration. Not refundable.)
- 2. Tuition Fee<sup>\*4</sup>: 535,800 yen for per year (planned amount)
- 3. Insurance Fee

Students of Tottori University are required to be covered by the Personal Accident Insurance for Students Pursuing Education and Research ("Gakkensai") and the Comprehensive Insurance for Students' Lives Coupled with PAS for International Students ("Insurance for International Students").

1) Gakkensai: This accident insurance covers injuries resulting from a sudden accident while insured students are participating in regular or extracurricular activities, being on campus, or commuting to school.

Insurance premiums (2 years): 1,750 yen

Department in charge: Health Science Center

(E-mail: hokekan-jimu@ml.adm.tottori-u.ac.jp)

2) Insurance for International Students: This insurance provides a wide range of support for student life, including personal liability, permanent disability, medical expenses for daily injuries, rescue expenses, and accidental damage to household goods in the residence.

<sup>&</sup>lt;sup>\*\*4</sup> Foreign students supported by a scholarship from Japanese Government are exempt from the

admission and the tuition fees.

Insurance amount (2 years): The amount varies depending on the type. Department in charge: International Affairs Division (Tel+81-85731-5056, E-mail: kokukogaku@ml.adm.tottori-u.ac.jp) For more details, please contact each department.

#### Note.

- 1. University admission and tuition fees above are estimates only. In cases where fee adjustments are announced while students are entering university or when they are already enrolled, students will be requested to pay the adjusted fees.
- 2. The method for paying tuition fee will be announced later when you are guided for university entrance procedure guide.

#### 7. Inquiries

Any inquiries related to the application to Department of Engineering, Graduate School of Sustainability Science, Tottori University, should be made by mail to Student Section in Faculty of Engineering, Tottori University, given below.

Student Section in Faculty of Engineering Department of Engineering, Graduate School of Sustainability Science Tottori University 4-101 Koyama-Minami, Tottori, 680-8552 Japan Phone: +81-857-31-5186 E-mail: en-kyoumu@ml.adm.tottori-u.ac.jp

#### 8. Correspondences in Case of Unforeseen Circumstances

When the screening cannot be implemented as scheduled due to large disaster or other unforeseen events, or when the university foresees that traffic disruption or other hazardous events have great negative effects on the applicants, correspondences might be taken such as changes of examination time and/or dates, screening methods, and date of result publication. When the specific correspondence to such event is determined, it will be posted on the official web site of Tottori University. So please be careful on Tottori University web site, especially just before the examination date.

# Appendix

# Application Procedure for Postgraduate Research Students to Department of Engineering Graduate School of Sustainability Science, Tottori University

Those who aim to study a specific subject at the postgraduate level may be admitted as Postgraduate Research students. The students in this category are not entitled to any degrees even upon the completion of their study program. However, Graduate School would advise them to prepare for the degree program of Graduate School depending upon their qualifications. The same qualifications are required of a prospective Postgraduate Research Student as are required of a degree candidate for the Master's program. Applicants for Postgraduate Research Students should submit the following documents to Student Section in Faculty of Engineering well in advance.<sup>\*\*1</sup>

- 1. Application Form for Admission
- 2. Curriculum vitae
- 3. Transcript of degree or graduation certificate issued by the university or college you have (had) attended.
- 4. Transcript of scholastic record issued by the university or college attended. This should be a confidential communication between the university or college you have (had) attended and Graduate School of Tottori University.
- 5. Certificate of proficiency in Japanese language made by a teacher of Japanese language or an equivalent, if any.
- 6. Certificate of registered matters on the original registration.
- 7. Letter of permission for application written by the employer, if the applicant is an employee.
- 8. Application fee of 9,800 yen. In the case of application by mail, payment can be made by postal money order (do not fill in the remittee's name).

Selection will be made on the basis of the documents submitted.

Time of admission for Postgraduate Research Students is normally the beginning of each semester, that is, April or October. The period of registration is up to one year, but may be extended if necessary.

Successful applicants are requested to pay the following admission and research fees before admission.

- 1. Admission Fee: 84,600 yen (planned amount)
- 2. Research Fee: 29,700 yen per month (planned amount)

Applicants who wish to know more details are advised to inquire by mail to Student Section in Faculty of Engineering given below or Chairman of Course concerned. A self-addressed envelope with 410 yen stamps should be enclosed.

Student Section in Faculty of Engineering Department of Engineering, Graduate School of Sustainability Science, Tottori University 4-101 Koyama-Minami, Tottori, 680-8552 Japan Phone: +81-857-31-5186 E-mail: en-kyoumu@ml.adm.tottori-u.ac.jp

<sup>&</sup>lt;sup>\*\*1</sup> About six months before the time of admission for taking ample processing time to enter into Japan are strongly recommended.

## **Department of Engineering**,

### Graduate School of Sustainability Science,

## **Tottori University**

#### Outline of Courses and Fields in Master's Program

#### Course of Mechanical and Aerospace Engineering

Possessing the human resources necessary for meeting a wide variety of needs in engineering fields, Course of Mechanical and Aerospace Engineering nurtures high-level engineers and researchers who are able to develop technologies from an interdisciplinary perspective, rather than from a stereotyped viewpoint. They are not restricted to just mechanical engineering, but are also proficient in the fields of aerospace, material, electronic, information, and environmental engineering. This course allows students to acquire high-levels of expertise and engage in original research; this enables them to develop so that they can aggressively assume leadership in solving problems. Specifically, students are trained to acquire the following:

- (1) A broad and fundamental knowledge of mechanical engineering, and also advanced expertise in applied mathematics, mechanics, and physics, that provide a foundation for entering advanced interdisciplinary engineering fields such as space engineering
- (2) A flexible way of thinking and insight to view problems macroscopically by considering the harmony between the natural environment and human society, and also leadership to solve problems systematically.

Applicants are expected to appreciate this policy and to be highly motivated. They are required to possess academic attainments in mathematics and physics employed in engineering as well as linguistic ability.

#### Mechanical and Aerospace Engineering Field

Solid mechanics, Materials science and engineering, Reliability and design engineering, Precision and production engineering, Mechanical dynamics and mechatronics, Control and robotics, Thermal energy engineering, Fluid engineering, Fluid dynamics, Condensed matter physics, Non-linear dynamics, Nanomechanics, Biomechanics, Thermodynamics

#### **Course of Information and Electronics**

The main objective of this course is to produce competent engineers and researchers. There are two fields in this course as listed below.

#### Information and Knowledge Engineering Field

We aim to produce IT engineers and researchers with the ability to realize advanced information-oriented technologies for the benefit of modern society. We particularly focus on producing human resources with the balanced knowledge of relevant hardware and software through instruction in, among other disciplines, advanced computing and its application to intelligent systems. The research and educational syllabi encompass the theoretical basics of information and knowledge engineering as well its advanced applications, such as design of intelligent systems and computer-aided technology.

#### **Electrical and Electronic Engineering Field**

This field covers a wide range of leading edge technologies such as highly efficient device, advanced communication technology, software and hardware, and aims to produce world class engineers. In detail, we groom our students to have

- (1) better technical knowledge of electric and electronics;
- (2) basic intellectual and ethical aptitude;
- (3) the ability to discover and solve difficult problems; and
- (4) the zeal to serve internationally.

We accept those students who are interested in electric and electronics fields.

#### Course of Chemistry and Biotechnology

The goal of Course of Chemistry and Biotechnology is to educate engineers and researchers who are competent in the fields of industrial chemistry and biotechnology. To this end, Course provides students with a highly specialized curriculum at the graduate level. Course is composed of two fields, Applied Chemistry and Biotechnology.

#### Applied Chemistry Field

We have classes that teach basic concepts in organic, inorganic, and physical chemistries, followed by advanced classes for organic and inorganic materials chemistry, organic and inorganic synthetic chemistry, catalyst chemistry, and electrochemistry. In addition, we place an emphasis on hands-on training under laboratory conditions in addition to classroom teaching to experience and analyze various chemical processes.

#### Biotechnology Field

Our goal is to provide students with knowledge that would allow them to seek new ways to combine nature and human society in harmonious ways, through the discovery of novel reactive mechanisms and useful compounds at the interface of biology (the study of living organisms and living systems) and engineering (the application of scientific principles to industry). Specifically, provides classes to apply the various mechanisms in bacterial or various cellular metabolism and replication to the production of various compounds and polymers, as well as to the removal of harmful chemicals from the environment. Any student who enters this field is assigned to a laboratory, and he/she will undergo basic training to become an engineer or a researcher through performing cutting-edge research.

We welcome students who possess a demonstrable grasp of scientific principles and techniques at the university level, and who are interested in becoming an active engineer or researcher in fields related to chemical industry, nanotechnology, biotechnology, and bioscience.

#### Course of Social Systems and Civil Engineering

Objective of Course of Social Systems and Civil Engineering is to train engineers who not only create abundant society through wide-ranging practices of improvements to the infrastructure, creation and activation of safety local community, but also pursue soft and hard wares methodology to create comfortable and active society by the education of highly-professional knowledge/technology and researches.

#### **Civil Engineering Field**

This field cultivates skillful engineers who have knowledge of plan, design, construction and management of social infrastructures. To achieve the objective, this field seeks motivated, wide perspective and problem-solving oriented persons who are eager to learn the construction technology which supports manufacturing activities, who are interested in creating space for human living, and who consider harmony with the nature.

#### Social Systems Engineering Field

This field aims at training engineers who can contribute to realization of better society through planning and design of systems on urban, traffic, environment, disaster prevention, management, production, and telecommunication. Objective of the training is to provide students with the ability for solving problems with an engineering approach comprising humanities and social science, and learning systematic consideration to solve problems in the modern society. field seeks students who have a passion to realize comfortable life and abundant society, who have idea looking things analytically and also who have strong will to overcome difficulties with elaborate systematic means.

# YEAR 2026 APPLICATION FOR FOREIGN STUDENT ADMISSION Department of Engineering, Graduate School of Sustainability Science, Tottori University

# Master's Program (April entrance)

2026年度鳥取大学大学院持続性社会創生科学研究科博士前期課程工学専攻(4月入学) 外国人留学生特別入試願書

Instruction(記入上の注意)

- Application should be written either in ink or by a ball-point pen (either in black or blue only).
   (記入にあたっては、必ずインク又はボールペン(青又は黒)を使用してください。)
- Application should be printed either in Japanese or in Roman block capitals.
   (記入にあたっては,楷書又はローマ字(大文字)を用いてください。)
- Numbers should be written in Arabic Figures.
   (数字は算用数字を用いてください。)
- 4. Year should be written in the Anno Domini system. (年号はすべて西暦としてください。)
- 5. Proper noun should be written in full, and not be abbreviated. (固有名詞はすべて正式な名称とし,一切省略しないでください。)

Form1 (様式 1)

Examination ID No. (受験番号) \*

\*Leave blank(この欄には記入しないでください。)

#### YEAR 2026 APPLICATION FOR FOREIGN STUDENT ADMISSION

#### Department of Engineering,

Graduate School of Sustainability Science, Tottori University

#### **Master's Program**

#### (April entrance)

<u>1. The Course of your choice; Select one course(志望コース名)</u>

<u>2. Elective subjects (選択科目)</u>

Only for students who wish to take a Course of Chemistry and Biotechnology.

Please select two pairs of subjects from the following pairs of subjects A~D and circle the letters A~D.

\* Changes after application are not accepted.

A. Organic Chemistry, Analytical Chemistry

B. Inorganic Chemistry, Physical Chemistry

C. Microbiology, Molecular Biology

D. Biochemistry, Structural Biology

**3. Name of desired academic supervisor**(志望指導教員名)

**4-1. Name in full, in vernacular**(姓名;自国語)

|                                 | MATSUNAGA, Tadao               | Development of minimally invasive medical devices utilizing microfabrication |
|                                 | matsunaga∎tottori-u.ac.jp      | techniques (MEMS)  |
|                                 |                                | Development of ultra-thin fiber-optic MEMS sensor                            |
|                                 |                                | Development of micro sensors for robotic surgery                             |
|                                 |                                | Development of tactile display using micro actuators                         |
|                                 |                                | Study on non-planar photofabrication techniques                              |

#### ③ Course of Chemistry and Biotechnology

| Field of Education-Research  | Supervisor<br>Place to Contact | Research Theme   |
|------------------------------|--------------------------------|--|
| Green Catalysis Chemistry    | KATADA, Naonobu                | Principles and application of zeolites and solid acid catalysis                                      |
|                              | katada∎tottori-u.ac.jp         | · Conversion of heavy oil components, methane, biomass and plastic waste into                        |
|                              | TSUJI, Etsushi                 | useful materials   |
|                              | e-tsuji∎tottori-u.ac.jp        | Synthesis of functional nanostructured materials   |
|                              | TSUNOJI, Nao                   | $\cdot$ Development of electrocatalysts and co-catalysts for water splitting and $\mathrm{CO}_2$     |
|                              | tsunoji∎tottori-u.ac.jp        | reduction  |
|                              |                                | • On demand zeolite synthesis for property design  |
|                              |                                | $\cdot$ Carbon capture and utilization, and environmental purification                               |
| Main Group Element Chemistry | NANJO, Masato                  | $\cdot$ Synthesis of ionic liquids consisting of heavy group 14-elements and application to          |
|                              | nanjo∎tottori-u.ac.jp          | electrochemical devices  |
|                              |                                | $\boldsymbol{\cdot}$ Design and synthesis of functional organosilicon and organogermanium compounds, |
|                              |                                | and development of electronic materials  |
| Applied Electrochemistry     | USUI, Hiroyuki                 | $\cdot$ Synthesis of lithium, sodium, or potassium storage intermetallic compounds and their         |
|                              | usui∎tottori-u.ac.jp           | properties as anode materials in rechargeable batteries  |
|                              | DOMI, Yasuhiro                 | Development of all solid-state secondary batteries   |
|                              | domi∎tottori-u.ac.jp           | Development of energy storage materials based on photovoltaics                                       |
|                              |                                | Reaction behavior analysis of electrode in rechargeable batteries                                    |
| Molecular Self-assembly      | MATSUURA, Kazunori             | Creation and application of artificial virus structures  |
|                              | ma2ra-k∎tottori-u.ac.jp        | Construction of nanostructures by self-organization of biomolecules                                  |
|                              | INABA, Hiroshi                 | Creation of light-responsive biomolecular systems  |
|                              | hinaba∎tottori-u.ac.jp         | Creation of functional materials applying inner space of microtubules                                |
| Synthetic Organic Chemistry  | NOKAMI, Toshiki                | Molecular Glycoscience   |
|                              | tnokami∎tottori-u.ac.jp        | Organic Electrochemistry   |
|                              |                                | Functional Ionic Liquids   |

| Field of Education-Research            | Supervisor<br>Place to Contact  | Research Theme   |
|--|---|--|
| Inorganic Materials Chemistry          | MASUI, Toshiyuki<br>masui∎tottori-u.ac.jp   | <ul> <li>Synthesis and application of environment-friendly color materials</li> <li>Design of new phosphors based on rare earth compounds</li> <li>Development of inorganic sunscreens</li> <li>Preparation of heterogeneous catalysts containing rare earth elements</li> </ul>   |
| Biofunction Development<br>Engineering | SUZUKI, Hirokazu<br>hirokazusuzuki∎tottori-u.ac.jp<br>YAGI Hisashi<br>yagi∎tottori-u.ac.jp                                    | <ul> <li>Discovery and application of novel functions of microorganisms and marine algae</li> <li>Application and development of the functions of microorganisms and marine algae to<br/>the practical production of useful substances and the solutions of environmental<br/>problems</li> <li>Fundamental studies: enzymology, molecular genetics, and protein engineering of<br/>enzymes involved in the metabolisms of physiologically active substances and new<br/>generation carbon sources in microorganisms and marine algae</li> <li>Directed evolution approaches to enhance enzyme stability using error-prone<br/>thermophiles</li> <li>Development of new medical materials using unutilized marine resources</li> </ul> |
